Thank you for requesting a copy of CDS/ISIS for Windows. In order to obtain the software, you may either contact your national distributor listed on:

- <http://www.unesco.org/isis/distributors.html>

or directly **download** the installation file:

- [Click here to download the file](#)

Hacer un click

Please note that link for download of the WinISIS will expire in 24 hours.

Quick troubleshooting guide:

"Cannot Run" or "Missing DLLs" messages

Depending from your Windows installation and/or version, you may get an error message reporting the file CTL3D.DLL (or CTL3DV2.DLL) as missing or a message saying that a "device attached to the system is not working properly".

In this case you do have use a DLL file located in \winisis\ctl3dv2

To make Winisis up and running you should copy CTL3D.DLL in the following directory:

\windows\system

Windows NT or 2000 users should copy that file in the corresponding system directory (C:\WINNT)

Thank you for requesting a copy of CDS/ISIS for Windows. In order to obtain the software, you may either contact your national distributor listed on:

Quick troubleshooting

"Cannot Run" or "Missing DLL"

Depending from your Windows version, you may receive the error message "Cannot Run" or "Missing DLL (or CTL3D.DLL (or CTL3DV2.DLL) are not properly registered".

In this case you do have use a registry editor.

To make Winisis up and running again, you should:

1. Open the registry editor (regedit) and go to:

\\windows\system32\config\systemprofile\userprofile\%username%\local settings\application settings
Windows NT or 2000 users should use the following directory (C:\WININT\
